

Cover work for 6 Hope

2015/10/26 (10:20-11:10am)

Due to all Mathematics teacher need to attend a PD day, this lesson will be supervised by a supply teacher.

Fractions - Division of fractions

1. Students self learn by watching the following videos

a. [Dividing 3/8 by 1/3](#) Using number lines to explain division of fractions

b. [Dividing fractions - keep, change, flip - song](#)

2. Students finish a worksheet on division of fractions (show steps and all workings)

Return your worksheet to the white tray near the window and the sink before you leave the room

(no matter you have completed the worksheet or not)

3. If students have finished the worksheet, they can log in to Mathletics and finish all set tasks and do "live Mathletics".

***(all worksheet are inside the white tray of your class.)**
